

HI JOHNSON BEATS WOOD IN NEBRASKA

And Bryan Is Buried Completely When Running As Dry Candidate For Delegate

(By Associated Press)
Omaha, Neb., April 21.—Returns from one-fourth of the precincts in yesterday's primary give Hiram Johnson a lead over Gen. Wood of approximately 3,000, on the republican side. Senator Hitchcock, democrat, is leading that division by 4 to 1.

William J. Bryan, running as a "dry," apparently has been snowed under as a candidate for delegate-at-large to the Democratic National Convention, and Senator Hitchcock has received the presidential nomination, defeating Robert Ross, of Lexington, Neb.

Senator Johnson's lead over his opponent was apparent when the first returns came in. Figures in his favor continued to mount as additional returns were received. One Omaha precinct gave Johnson 33, Wood 13 and Pershing 19. First returns from outside Omaha, (Douglas county) came from Grand Island. One precinct gave Johnson 167, Wood 16 and Pershing 11.

On the democratic side Hitchcock received 51 and Ross and other "written in" presidential candidates, 5.

Nebraska women participated in the primary election. It was the first time they had balloted. Mr. Bryan had made a strong appeal to the women. The returns indicated that the appeal was unheeded.

The Bryan slate of four delegates at large to the national convention, has been defeated, with the possible exception of one delegate. The democratic delegation will be instructed for Hitchcock.

The Senator's friends said that the result placed Senator Hitchcock before the country as a leading candidate for the democratic nomination. He went before the voters with an endorsement of the Wilson administration, and declared publicly for legislation of light wine and beer.

The Omaha returns have given to the Hitchcock delegation at large slate 2 to 1 indorsement over the Bryan selection. The Bryan delegation was "dry."

In a number of districts Bryan's name was at the foot of the column of the eight candidates for delegateship at large.

"BLOND BOSS" QUILTS WOOD

New York, April 21.—Reports that a serious disagreement had taken place between Colonel William Cooper Procter, of Cincinnati, National Chairman of the General Wood presidential campaign, and Frank H. Hitchcock, whose association with Wood forces was heralded widely two months ago, have been in circulation here for weeks, and resulted yesterday in a statement from an authoritative source that the break came almost one month ago.

It also was announced in well-informed circles yesterday that Mr. Hitchcock no longer was associated with the Wood campaign.

Details of the rupture are lacking, but it is known that Colonel Procter was not in favor of the engagement of Mr. Hitchcock and consented only because of pressure brought by Wood leaders, particularly in the Southern States.

Wood advocates, according to reports, have been inclined to criticize what they consider to be the authoritative attitude of Colonel Procter. They say he should have made concessions to hold both John T. King, of Connecticut, and Mr. Hitchcock for their wide acquaintance and knowledge of practical politics, instead of driving them away from the support of General Wood.

IMPORTANT NOTICE TO SUBSCRIBERS

On and after the 1st day of May, 1920, the mail subscription price of the Daily Register will be \$4.00 per year.

Up to May 1 you may have the privilege of renewing for another year at \$3 a year, no matter whether your subscription has expired as yet, or not. In other words, if you pay \$3 before May 1st and your subscription is now paid to, say, July 1st, you will be marked paid up to July 1, 1921.

The fearful cost of paper and great scarcity at any price makes this increase absolutely necessary.

FIRE WIPES OUT BLOCK AT IRVINE

Flames Beyond Control, Gut Business Section, Entailing Great Loss

Fire originating in a garage yesterday afternoon started a fire which raged for hours and wrought damage to the extent of more than \$50,000, wiping out an entire business block and throwing the citizens of Irvine into a state of great excitement.

For a time, owing to the high winds, it was believed that the greater part of the town would be destroyed and there was a miscellaneous moving and shifting of furniture etc. The flames, which originated in the Estill Wallace garage, were discovered at an early period, but the presence of gasoline and other inflammable material caused the fire to get beyond control within a short time. It was soon discovered that the Irvine fire-fighting apparatus was inadequate to cope with the situation and a message was sent to Ravenna. Assistance came but was too late to save any portion of an entire business block which was razed. The flames gathered headway rapidly and so smothered volunteer firemen that their efforts to rescue a number of automobiles in the garage were unavailing in the garage another, seven of the machines were reduced to a worthless mass and the flames spread from one building to another.

The fire brings about a great loss to a number of merchants, some of whom had little if any insurance. Within two hours after the fire started the flames had licked up the entire block and it was with difficulty that they were prevented from igniting nearby buildings. Much of the property destroyed was owned by State Treasurer J. A. Wallace, whose loss alone is believed to be nearly \$50,000.

It was the most disastrous fire in the history of the town, old residents say and eliminated a number of important and well known buildings. The exact loss has as yet not been estimated, owing to some of the papers having been burned, that dealt with insurance.

Women assisted the workmen in fighting the flames and while there were a number of narrow escapes from injury, no one was seriously hurt. The visitors from Ravenna worked like Trojans, however; the handicap was too great and one and all were compelled to witness the flames spread from one building to another. It was only with the utmost effort that the fire was confined to the one side of the street, since every person and bucket, together with yard hose was brought into play and the effort united to save the row of buildings, the sides of some becoming terribly heated from the flames across the street.

Available list of buildings lost through the fire, were: T. O. Wallace furniture store and stock worth \$8,000; \$1,500 insurance; Puckett's pool room, Miss Bettie Miller's millinery store, \$1,500 insurance; Dr. E. C. Edwards' automobile, \$1,000 insurance; N. F. Harris Ready Furniture Co., insurance \$1,500.

TORNADO VICTIMS TOTAL NEARLY 200

(By Associated Press)
Birmingham, Ala., April 21.—The toll of yesterday's storm which swept portions of Mississippi and Tennessee was placed today at 166 killed. Scores were injured. The property damage is approximately two million dollars.

The largest number killed in Mississippi were at Meridian and Aberdeen, with 14 and 21, respectively.

Twenty killed in Marion county was the record for Alabama, while in Tennessee three were killed in Williamson county.

The tornado apparently struck at Guin, Ala., zigzagged through northwestern Alabama, eastern Mississippi, and southern Tennessee, where it spent its force.

Plant Beds Stripped

Farmers in the vicinity of Murphysville, near Maysville, report that their tobacco and cotton beds have been invaded and badly damaged by persons who not only carried off plants, but left the beds uncovered thus damaging the rest by being exposed to the cold weather.

Edgar Allen Poe, orphaned in infancy and adopted by a rich uncle, was disinherited in his uncle's will.

SUSPECTED CHECK ISSUED TUESDAY

Young Man Had Pocket Full Drawn On Farmers Bank At Irvine

When a young man purchased a suit of clothing Tuesday and tendered an undated check on the Farmers State bank at Irvine, in payment, A. Dobrowsky, a First street merchant became suspicious, as he discovered that his patron had a dozen additional checks, all signed, in his pocket.

Making an excuse, he left the store and took the check to a local bank where he was advised to communicate with the bank at Irvine, in order to ascertain the validity of the paper. Mr. Dobrowsky returned to his store to find the young man gone. The check was made out to and signed by "Robert Willowby." Before the departure from the store, the merchant asked the young man why he carried so many checks, and the latter replied that they were the property of friends and had been given to him to get cashed. The check was for thirty dollars, and the suit of clothing was priced at twenty-five dollars.

Mr. Dobrowsky later saw the fellow on the street, he claims and thought that his suspicious may have been unwarranted, however the stranger soon vanished.

The paper, now believed to be worthless, was turned over to Chief of Police Devore. This is the first attempt, a number of local merchants state that has been made for some time to cash worthless checks here, the last occurrence having been about a year ago when a number of spurious checks for small amounts were put in circulation here.

DAN CUPID STOPS COURT PROCEEDINGS

"I will ask you gentlemen to pardon me a moment," was the address made Wednesday just before noon by County Judge W. K. Price, as he was called from the bench to perform a marriage ceremony. "I always have a few minutes for Dan Cupid," he soliloquized, as he retired to his office and united in marriage Rufus Thomas, son of Mr. and Mrs. John C. Thomas, and Miss Ortha Hornsby, daughter of Mr. and Mrs. Henry Hornsby. The mother of the bride was present and the ceremony required but a few minutes after which Judge Price again took up his duties in the big court room. The little bridal party hailed from Red House and returned there immediately after the ceremony.

Strikers Are Obdurate

(By Associated Press)
Chicago, April 21.—Striking railroad men in the Chicago district refused today to vote on the question of returning to work. All efforts of a committee of the strike leaders failed to obtain action.

R. S. Murphy, one of the three strike leaders, arrested last week during the appeal for men to return to work, waved an American flag and declared he would not fight for American government. He was greeted with cat calls and hisses. Union leaders declared after the meeting that they were helpless to order the men back to work.

Settles Case of County Vs. Irvine Isbell

Wednesday afternoon in the county court, Judge W. K. Price heard the condemnation proceedings of Madison county against Irvine Isbell, and the hearing terminated in the county agreeing to pay the sum of \$150 to the owner of the land, as a result of a new road being built, and this sum was decided upon as proper damages for rebuilding of fences, etc.

New York Situation

(By Associated Press)
New York, April 21.—Railroads affected by the strike today reported an increase in freight traffic, and virtually normal passenger service.

ANNUAL MEETING

There will be a meeting of the Alumnae Association of Madison Institute Saturday afternoon at 3 o'clock in Christian church parlors. Members interested in having a luncheon the latter part of May are asked to be present. Miss Anne DeJarnette, President Association.

FROM PRODUCER TO CONSUMER

MOTOR TRUCKS HERE SHORTLY AFTER NOON

About a dozen motor trucks with heavy pneumatic tires and headed by a brass band drove into Richmond about half past one o'clock Wednesday afternoon. This was the third day out of the Lexington Truck Dealer's Association big tour through the Blue Grass counties.

Major Thompson B. Short was in command as tour master. After parking on First street, the visitors ate lunch, and then proceeded to do some demonstrating. Percy Reid had arranged for a haul of a ton of Zaring's flour out to Red Lick, and other tests showing just what the pneumatic tire trucks will do under adverse circumstances, were to be suggested. From here the tourists go on to Berea, and return via Winchester.

STOLE EVERYTHING NOT "NAILED" ON CAR

Thieves carried off everything but the chassis and engine of Dr. G. G. Perry's Ford roadster when he left it on the Lexington pike this side of Foxtown Tuesday night. The car got out of fix and was left at the side of the road until a repairman could reach it. When the car was found Wednesday morning, all four tires were gone, the coils had been removed, the headlight rims taken off, all tools gone, globes from the headlights; in fact "everything that wasn't nailed down" was taken. It is believed that the thief can be apprehended if he attempts to sell any of these accessories of the car.

HO, LOOK AT THIS!

(By Associated Press)
Washington, April 21.—Assistant Postmaster General Koons today instructed the city postmasters to permit letter carriers to wear overalls whenever the majority at any office so desired. Staid house office buildings were given a touch of jazz today by six young women secretaries, who enrolled in the overall brigade, appeared in blue denim trousers, rolled well above high heeled pumps, silk stockings and multi-colored waists. They created something of a sensation as they tripped along the corridors.

Kentucky Clean-Up Date

(By Associated Press)
Louisville, April 21.—The State Board of Health today joined with the Women's Clubs of the State in designating April 26th to May 2nd, as "Clean-up Week." It issued a proclamation asking aid of city and county officials in removing the winter's accumulation of refuse.

PIRATES BEAT REDS AGAIN
Pittsburg — 4 0 0 0 0 0 1 0 — 5
Cincinnati — 0 0 1 1 0 0 0 1 — 3
Batteries—Cooper and Lee; Ring and Rariden.

Work was resumed Wednesday morning on the excavation of the streets after another stop owing to the weather. Contractor McLain is trying to procure a stand-in, as he says with the weather man in order to push the work.

ROAD MONEY MUST BE PUT UP FIRST

Work Will Not Start On Federal Highway Until Sum Subscribed Is In Bank

Delegations from various counties along the proposed Federal Highway which comes to Richmond were in Frankfort Tuesday to consult with State Road Commissioner Joe S. Boggs regarding the state and government's portion of the expense of building a modern roadway. Different matters connected with the proposition were discussed.

It was impressed upon all who were present by Mr. Boggs that the government positively will not begin work on the roadway until every cent subscribed has been paid in and certified to the State Road Department. This means that all who made pledges to Madison's part of the fund must place in their subscriptions in the State Bank and Trust Company at once.

This has been designated as the depository an dit will handle and certify the money as soon as it is received, to the State Road Department. Members of the Soliciting committees, who secured the pledges are preparing to let all who subscribed know what the conditions are: that work on the highway positively will not start until every cent subscribed has been paid in to the bank here. The State Road Department and Uncle Sam do business on a cash-in-advance system, and as they are putting up dollar for dollar with the counties, the justice of their plan cannot be questioned. So it's up to those who subscribed the private fund as to when work on this greatly needed highway will start in.

GIRLS' HAD NARROW ESCAPE IN RUNAWAY

Misses Audrey and Nettie Wilson had a very narrow escape from death when their horse kicked and ran away Saturday afternoon when the girls were returning to their home on Jack's Creek pike. The accident occurred a few yards from the Richmond pike. The horse ran against a tree, overturning the buggy and throwing the girls against the pike. Miss Audrey, who has just returned from school at Lexington, received a kick on the right arm, when her arms were caught in the lines, and dragged a few steps by the horse. Her sister is suffering several minor cuts and bruises. Though they are not so seriously hurt as was thought by persons who rushed to them, the girls are suffering from a nervous shock and their buggy was completely demolished.

Rookwood
Rookwood Coffee will be our Saturday special. 45c per pound—one day only—Saturday, April 24th. D. B. McKinney & Co. 96 3

WANTED—To sell my farm; cheap for cash. John Rodman, R. D. 3, Pekin, Indiana. 96 1p

THE WEATHER
Local thunder showers probably tonight and Thursday; somewhat warmer tonight; cooler Thursday afternoon in west portions.

THE MARKETS
Cincinnati—Cattle steady; hogs 50c to 75c lower; Chicago 25c higher.
Louisville, April 21—Cattle 200, active and unchanged; hogs 2,000; active and unchanged; sheep 50; firm and unchanged.

FIRST ELEVATOR IN RETAIL STORE

Richmond Builders Are Crowded With Work and Present Year Will Be Big One

Take the elevator, please, second floor, then to the right"—sounds rather strange, and to be in a home store too, doesn't it? That's just what is coming, for the contract for the first up-town elevator in a retail store has been let and the work will be started at once. This will be in the furniture and music store of the Higgins company.

The contract which was awarded to Todd & Sons, local contractors, will mean, when the work is completed, that there will be a new front, an additional music room, the elevator leading to the upper floors, and other improvements which will render the establishment up to the minute. It is believed that this will be followed by other similar improvements of a like nature in the near future.

Another improvement of note will be the remodeling of the Allen Zaring home on Summit street, which will be effected within a short time, also by Todd & Sons. The present building will be transformed into a modern and attractive structure, on the bungalow order, somewhat larger in proportions than the regulation building of this character seen in the crowded cities. This will represent the future home of Mr. Zaring and family.

The work of finishing the beautiful home of J. S. Sewell, on Woodland avenue will soon be effected and this will add to the number of attractive homes in this city. It represents a cost of more than \$30,000.

These are but a few of the improvements which will mark the change during the present year in the residential and business portions of the city of Richmond. Mr. Todd & Son are figuring on other contracts, as well as other local contractors for much more improvement work and they report that this year will prove a model year for building and improvement work generally.

K. E. A. MEETING WELL UNDER WAY

(By Associated Press)
Louisville, April 21.—Prof. R. P. Green of Bowling Green, President of the Kentucky Educational Association, in addressing the annual meeting here today, outlined a program of intense Americanism for school teachers of the state. He declared the teachers' task to be the defense of American institutions and asserted, "no red radicalism shall have foothold in our ranks, if we have the strength of soul and simplicity of mind of the founders of our land." President M. B. Adams, of Georgetown College, likewise declared that the teaching profession holds the key to the solution of world chaos.

Real Estate Transfers

W. B. Smith to B. Golden, 80 acres for \$2,200.

MOTOR TRUCKS ON THE FARM

How Modern Methods Are Proving of Great Benefit To Up-To-Date Farmers

The successful farmer was first a practical man—practicability is the foundation of his success as a farmer—time, the elements and all his surroundings compel him to deal constantly with brutal frankness and he wants little to do with theory. When the farmer is confronted with such serious conditions as he is today, with regard to labor problems, he welcomes every mechanical device that will make his farm more nearly a one-man organization. Said George F. Smith here today with the Motor Truck Demonstration tour.

To the ordinary observer it may not so appear, but the facts are that the farmer's haulage or transportation problems are more momentous right now than even the production of crops. The need of the truck on the farm is evidenced by the number already owned and operated by American farmers.

The evolution in the methods of production on farms, from the hand planter; cultivator, the scythe and the sickle, to the more modern machinery such as self-binder, etc., drawn by horses, and later by farm tractors, was perfectly natural trend of progress.

Then, just as natural is the evolution from the pack on the back, the ox cart, and the horse-drawn vehicle to the truck, to solve the farmer's haulage problems. He can not long resist installing it as a component part of his equipment.

From 1850 to 1900, when the old hand methods of farming were in vogue, farm values in America increased from \$4,000,000,000 to \$20,000,000,000. From 1900 to the present day, with modern methods, farm values have increased from \$20,000,000,000 to \$75,000,000,000, due to the ability of the farmer to cultivate more intensively a wider acreage and more advantageously market his commodity.

From 1890 to 1909 the population of the United States increased 21 per cent and even with improved methods in these days it was only possible to increase the production of food-stuffs 10 per cent—hence the increased cost of living with which we all are, we regret to say, so thoroughly acquainted. The population of America has been increasing so much, more rapidly than the increase in the production of foodstuffs, that for a period of seven years prior to the European war the United States was importing corn from Japan and meat from the Argentine and Austria, and during the same period the importation of foodstuffs looking at it from a standpoint of dollars and cents, was practically equal to the exportation of foodstuffs from America.

And while our population as a whole increased, the population in the rural districts actually decreased.

Over 8,000,000 people have moved from the farms in the United States to the cities since 1900, and the heaviest percentage of the immigrants from foreign countries to the United States have located in the densely populated manufacturing centers, rather than migrating to the farms. This condition is not new from a world-wide standpoint, for ancient history shows that the Greek preferred Athens to the rural districts and the Roman, the circus to the farm.

In 1880 the farmers could hire a man for farm work at from \$15 to \$20 a month, while today they are paying from \$60 to \$75 a month for farm laborers.

The truck manufacturers of America are face to face with the fact that not only does the farm offer the greatest potential duty to learn quickly the needs of the American farmer and produce and equip a truck that will most efficiently and economically serve the needs of the agriculturist.

The following paragraph contains some very striking facts which were published in a recent of Leslie's Magazine:

"The horse! Never before has the world so much needed the bounty of nature combined with the energy of man. And yet, in this country alone, 125,000,000 acres of fertile soil are devoted to the sustenance of the horse. This land, comparing in area approximately to that of the states of New York, Pennsylvania, Ohio and Illinois could feed the starving million of the world if the farm tractor and motor truck were used to replace the 12,000,000 horses. The tractor too, requires food in the form of fuel, but its energy comes from gasoline or kerosene—products obtained from underneath the ground—not from fertile soil which could otherwise be used to (Continued on Page 6)

Truck Price Facts—

Price doesn't govern quantity or performance. A motor truck selling for six thousand dollars appeals to a limited market. The output, therefore, is small. The production and sales cost is high. The profit margin is wide. And the list price must include high overhead and greater profit. What proportion of every cost dollar of the six thousand dollar truck is profit and overhead and what proportion is value?

Bethlehem Motor Trucks are quality trucks on a quantity production basis. Bethlehem Motor Trucks are not built up to an uneconomic value or down to a price. They are ready to be judged as motor trucks should be judged—on their ability to transport and the cost per ton mile of that transportation. Buy your Motor Truck on Facts.

MAPLE SYRUP NOW BECOMING SCARCE

Owing to the desire for the ground, many of the maple trees which have been so prolific in the way of furnishing maple syrup, are disappearing and the supply is rapidly being diminished. There are few vicinities where the syrup is produced in any paying quantities now. County Attorney O. P. Jackson, while out on his farm recently, had his attention called to a number of trees which he tapped. There was a good supply of water, however, the number of trees limited the supply to such an extent that syrup making was not to be thought of. A number of years ago Madison county enjoyed a large and profitable production from this source and it is with pangs of regret that the industry is vanishing.

RELIABILITY OF REGISTER SERVICE

Local Merchant Takes Exception of "Big" Sheets—Shows 'Em Up To False Impressions

A man was passing down the street selling newspapers from a distant city, crying out—"All about the settlement of the railway strike". H. Clay Stone, local restaurateur, hailed the fellow and asked what authority he had to state that the strike had been settled, whereupon the street salesman was "shown" the paper of an earlier edition from another city which told of the strike situation. "Now I'll show you", said Stone, as he presented a copy of the Daily Register, showing him the latest report by wire, which was to the effect that the strike was far from settled, and that the impression was false. Read the home paper; take the Register, and you won't be deceived, the news is the latest, and the A. P. report is right", continued the local merchant. The Register carried a later wire report, refuting the story of the strike, giving the true situation, and was then being sold on the street.

Trees That Have Long Life.

Brazilian coconut palms live from 600 to 700 years, and the date palm from 200 to 300 years. On the Mount of Olives, Jerusalem, there are olive trees known to have been flourishing in 1000.

Arkansas in First Place.

Arkansas is first among the states in America in the production of two minerals, bauxite and novaculite, the former being the ore of aluminum and the latter the source of the larger part of the oilstones produced in the United States.

Wanted Bids On 2 School Houses

By order of the County Board of Education, sealed bids will be received till noon Monday, April 19, 1920, for building a two room school house at Big Hill. Also a two room building at Forest Hill.

Bidders must be prepared to give bond with bid.

The right to accept any or reject all bids is reserved by the Board. Plans and specifications may be seen at the County Superintendent's office at the court house.

Volume of ashes thrown out by Mount Katmai in the eruption of 1912 is estimated at five cubic miles.

Free Yourself From

The Pangs of Rheumatism

The Right Treatment Will Break Your Shackles.

You who are afflicted with Rheumatism know from experience just how excruciating the pangs of the disease are. You know also, if you have had rheumatism for any length of time that there is no real relief to be expected from the use of liniments and lotions. Rheumatism is a stubborn disease, and its pangs and pains cannot be wiped out as if by magic. A disease that is so full of torture and renders so many people absolutely helpless, is a deep-seated one; it is not on the surface, hence it cannot be reached by external, surface remedies.

Lotions, liniments and ointments applied to the surface may in some cases deaden the pain for the time being, but until you attack the disease at its foundation, you are making no progress toward a cure. Many forms of Rheumatism are caused by millions of tiny germs that infest the blood, and until the blood is absolutely freed of these germs, there is no real relief in sight. In fact the longer you delay treating the disease through the

blood, the further you are getting from ridding yourself from the disease. And because so many people treat the pain, and not the disease itself, is one reason why Rheumatism increases in severity, year by year.

The most satisfactory remedy for Rheumatism is S. S. S., because it is one of the most thorough blood purifiers known to medical science. This fine old remedy cleanses the blood of all impurities, and is a sure antidote to the germs of Rheumatism. Being purely vegetable, without a particle of mineral or chemical in its composition, it works by eliminating and forcing out of the blood all impurities, acting as a tonic to the entire system at the same time. It has been used for more than fifty years, and scores of sufferers from Rheumatism give it unstinted praise.

S. S. S. is sold by druggists everywhere, and any of them will tell you that it is a thoroughly honest and reliable old remedy. You are invited to write our medical department for full information and advice about the treatment of your own case, for which no charge is made. Address Chief Medical Adviser 12 Swift Laboratory, Atlanta, Ga.

94 ACRES MADISON COUNTY BLUE GRASS

SOD AT AUCTION

TUESDAY, MAY 4th 1920

10 O'CLOCK—(RAIN OR SHINE)

This little farm recently purchased by M. A. Collins, and ALL in gra ss.

It is ALL TOBACCO LAND. "Nuff said."

LOCATION—One mile from Richmond on Big Hill pike Dixie Highway. Long frontage on pike. A number of Beautiful Building Sites.

Will be SUBDIVIDED and sold to the "High Dollar" in a number of tracts—Some 2 acre tracts—5 acre tracts—10 to 25 acre tracts. But remember I always sell to suit the purchasers and you can buy just the number of acres you want.

Buy this land for a home, for investment, or speculation.

A money maker any way you handle it. Remember Swinebroad "ALWAYS SELLS."

Attend this sale and see how he does it. A square deal to everybody.

Look at this land is all I ask. It speaks for itself. It will appeal to you.

Will be sold without reserve, by-bid or limit.

Remember the date. Will be sold on easy terms.

Mrs. Oliver Monroe and children of Winchester are visiting Mrs. B. K. Keaton.

Miss Ethel Turpin is at home from Hamilton College this week a victim of mumps.

Dr. M. T. Chandler is visiting his daughter, Mrs. Charles Megibben in Cynthia.

Mr. Clarence Ballard, of Ravenna, spent the week-end with his parents on Broadway.

Mr. Elmer Deatherage and daughter, Miss Mary Louise, were visitors in Lancaster Monday.

Mr. and Mrs. E. B. Tatum spent the week-end with Mr. and Mrs. E. P. Harvey in Winchester.

Miss Frances Parke is visiting her grandparents, Mr. and Mrs. J. T. Dykes in Winchester.

Mrs. and Mrs. Leroy Prawl have returned to Bardonia after a pleasant visit to Miss Mollie Powell.

Mrs. C. B. Hamilton, of New Mexico, is visiting her sister, Mrs. George Thorpe of the Waco section.

Mrs. Warfield Bennett, Misses Helen Bennett and Madge Burnam were shoppers in Lexington Friday.

Mr. Henry Coke Knight, of Dallas, who is a student at Harvard this year is the guest of Mrs. W. W. Watts.

Miss Belle Bennett is in Kansas City where she will deliver her annual message at the Methodist Conference.

His many friends will be sorry to know that Mr. Leslie Turpin is very ill at his home at Red House suffering from auto intoxication.

Mr. Oliver Carter, of Chicago, who is visiting relatives in the county was the dinner guest of Mr. Con Taylor on Broadway Monday evening.

Mrs. Merrick Wadsworth and daughter, of Irigon, Oregon, have arrived for a visit to the former's aunts, Misses Mary and Sue Embry of Waco.

Miss Isabel Bennett has returned to Cincinnati College of Music having been at home for the past three weeks recuperating from an attack of scarlet fever.

Mr. Robert Duncan is convalescent from an operation for tonsilectomy at the hospital in Kansas City. Mrs. Duncan writes her mother, Mrs. B. B. Million that he is rapidly improving.

PAINT LICK

R. G. Wood, cashier and real estate dealer, has sold his residence and about eight acres of ground to W. C. Wynn. Mr. Woods has bought the Nat Cotton place near Kirksville and may move his family there.

Harry Francis has bought of Wm. Patrick, a house and lot in Paint Lick. The house is now occupied by the family of Henry Conn, who will move to Richmond.

A number of boys and men have joined the Overall Club to help reduce the price of clothing and the ladies think of having a gingham club.

Mr. and Mrs. U. M. Burgess entertained with a book party Saturday evening in honor of the Misses Mary Hickey and Julia Burgess, of the Richmond Normal, and Miss Minnie Burchett, of Lancaster. After the game delicious refreshments and music were enjoyed.

Mrs. Fred Hall and daughter, Miss Mabel, spent the week-end with friends in Frankfort.

Mr. and Mrs. Otto Bowling have returned from a year's stay in Los Angeles, California, where they went for Mr. Bowling's health.

Mrs. Eliza Ann Todd, aged 86 years, widow of Mr. W. L. Todd, died at her home near here Saturday after a few days' illness. She was faithful member of Mt. Tabor Baptist church. She is survived by several sons and daughters to mourn her loss. Funeral services were conducted by her former pastor, Rev. C. S. Ellis, on Tuesday afternoon.

Misses Hester Patrick, May Ballard, Emma Holtzclaw, Ruth Lane, and Jamie Bronston, of the Paint Lick school, are attending the K. E. A. in Louisville this week.

Mrs. Fannie Walker spent Monday with Mrs. B. M. Lear.

Dr. and Mrs. B. B. Montgomery were called to Bryantville Monday, by the serious illness of the latter's father, John W. Bryant.

Mr. and Mrs. R. K. Stone, of Richmond, were guests of Mrs. E. E. White, Sunday.

The graded school closed Wednesday allowing teachers to attend the K. E. A. at Louisville.

HEARD ABOUT TOWN

D. C. Metcalf, of Stanford, is in town taking a business census for the government. He is getting complete statistics of every commercial enterprise. This work is part of the regular census of 1920. Metcalf has seven counties in his district, Madison, Lincoln, Boyle, Garrard, Wayne, Pulaski and Rockcastle.

Mrs. C. D. Chenault, of Lexington, who is a member of the local D. A. R. chapter, is being urged for high honors at the national convention at Washington. A dispatch said: Kentucky women attending the D. A. R. Continental Congress have started out with vim to put across Mrs. C. D. Chenault, of Lexington, as candidate for vice president general. Seven vice presidents are to be filled and there are 13 contestants. Mrs. Chenault is receiving very friendly treatment from the Washington papers. The Washington Herald said: Mrs. Chenault is a leader in the social and literary life of the Blue Grass state. She organized a chapter in Richmond, Ky., composed entirely of members of her husband's family.

The Shelby County Board of Education will pay its teachers the following salary scale the ensuing year: High School principal \$1,000 to \$1,850; teachers in the high schools \$85 to \$100 a month; grade teachers \$75 to \$90.

PUSH PLANS FOR SOLDIER RELIEF

(By Associated Press)

Washington, April 21—After a conference today the republican leaders in the House said that soldier relief legislation would be taken up in the House May 3rd, under the suspension of rules with debate limited to forty minutes. It is also said that "insurgent" republicans could not block the original plan. The Ways and Means Committee expected report of a composite bill to the House next week, providing for a cash compensation of \$1.25 per day for each day's service, excluding the first two months. The leaders also expressed the belief that gross sales of tax plan to raise the necessary funds will be approved.

MANY COMPLAINTS OF PROFITEERING

(By Associated Press)

New York, April 21—A. W. Riley, chief of the "Flying Squadron" of the Department of Justice, whose campaign so far has resulted in the conviction of 107 profiteers with fines ranging from \$50 to \$2,500 and imprisonment from one day to two years, has uncovered a number of surprising commodities for which dealers are said to be asking exorbitant prices. Complaints of alleged "gouging" in almost everything from pickles to rouge and from lemonade to whiskey are being reported to Mr. Riley by New York consumers. One man who had paid \$1.15 to a restaurateur for a tiny steak and six small pieces of French fried potatoes, didn't stop to eat them but glanced at his check, took a newspaper he had been reading, wrapped up his "meal" and brought it to the Federal prosecutor.

Some of the letters of complaint were amusing, others pathetic. All, however, showed the seriousness of the present era of high prices. One indignant citizen wrote: "You ought to investigate—'s fish market in Brooklyn. He's a modern Jesse James. What do you think of 90 cents a pound for salmon and 60 cents for sea bass?"

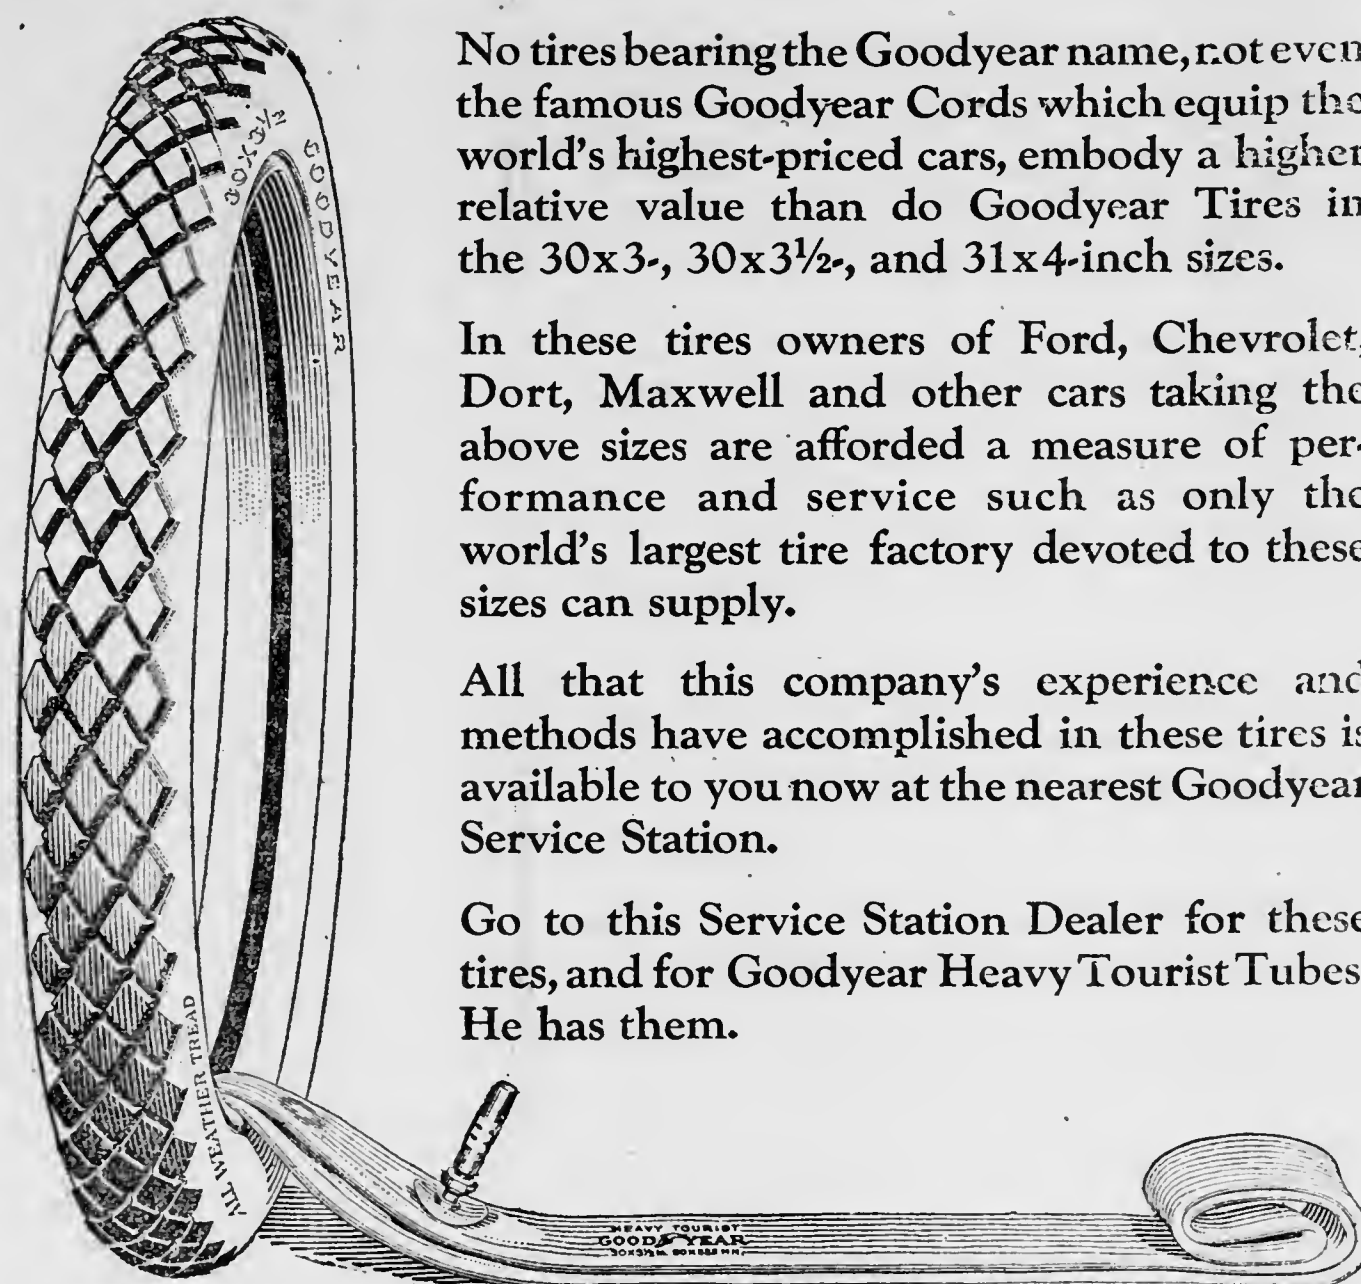

The chief of the "Flying Squadron" has received complaints of such examples of alleged profiteering as follows:

Drug store whisky at \$5 a pint and \$2 more for doctor's prescription; canary birds \$20 to \$25 and \$3 to \$18 for a cage; lemonade, served at a hotel dance and said to have been "weak" \$1 a glass; rouge \$1 to \$3 a box for "imported" brands; that fish during Lent rose from 20 cents to \$1 a pound in some New York markets; prunes, three for 10 cents in a popular restaurant; peanut oil, sold as "olive oil", \$4 a quart; anthracite coal \$15 instead of \$9.50 ton in Nyack, N. Y., because the miners were granted a wage increase of 50 cents a ton.

There are 41 producing wells in the Menefee county oil field and other wells drilling. New operations are extensive and new operators are coming into the field almost daily.

Joseph W. Bower, a school teacher at Shelbyville sustained serious injuries Tuesday as the result of an automobile accident.

Smaller Cars—and the World's Most Popular Tires

No tires bearing the Goodyear name, not even the famous Goodyear Cords which equip the world's highest-priced cars, embody a higher relative value than do Goodyear Tires in the 30x3-, 30x3½-, and 31x4-inch sizes.

In these tires owners of Ford, Chevrolet, Dort, Maxwell and other cars taking the above sizes are afforded a measure of performance and service such as only the world's largest tire factory devoted to these sizes can supply.

All that this company's experience and methods have accomplished in these tires is available to you now at the nearest Goodyear Service Station.

Go to this Service Station Dealer for these tires, and for Goodyear Heavy Tourist Tubes. He has them.

30x3½ Goodyear Double-Cure \$23.50

Fabric, All-Weather Tread.

30x3½ Goodyear Single-Cure \$21.50

Fabric, Anti-Skid Tread.

Goodyear Heavy Tourist Tubes are thick, strong tubes that reinforce casings properly. Why risk a good casing with a cheap tube? Goodyear Heavy Tourist Tubes cost little more than tubes of less merit. 30x3½ size in water—\$4.50 proof bag.

BEAUTY IS REFLECTED HEALTH

"Good Looking" Means the Opposite of Sick Looking

IT'S A MATTER OF
RED BLOOD CELLS

Pepto-Mangan Makes Rich Red Blood—Builds Up People Who Lack Vitality

If your body is sound and your blood is rich and red, your acts and thoughts will be quick and strong.

Let your blood get weak and your food won't nourish you nor your sleep refresh you.

Too much hard work, an illness or a mental strain can thin your blood down and Pepto-Mangan is needed to bring it back to healthy normal condition.

Knowing this, doctors for years have recommended Gude's Pepto-Mangan because of its blood-building and tonic properties.

Pepto-Mangan is such a simple and harmless tonic, yet such a prompt builder of red blood, that its reputation has spread all over the country. Today every druggist sells it and thousands of men and women use it as a restorative whenever they or their children seem to feel below par.

Pepto-Mangan agrees with the most delicate stomach, and is obtainable in either liquid or tablet form.

Be sure the name "Gude's" is on the package, when you buy Pepto-Mangan. Ask the druggist for "Gude's." If "Gude's" is not on the package, it is not Pepto-Mangan.

When everything is said and done, you'll have to admit that Rookwood coffee is just about the best coffee you ever tasted. Prove it to yourself by buying Rookwood today from D. B. McKinney & Co.

No Store Damage Here

The severe wind and rain storm which passed over Madison county late Tuesday night wrought no material damage, as far as is known. Telephone reports to various parts of the county brought intelligence to the effect that with the exception of a few small buildings of minor import, no damage was done. In other localities, however, the wind reached the velocity of a gale, and considerable damage resulted to small buildings and shrubbery.

Title of Duke.

The title of duke, the highest order of the British peerage, was first introduced in 1337, and the Black Prince, the son of Edward III of England, was the first duke, under the title of the duke of Cornwall.

The first baby show in the United States was held at Springfield, Ohio, on October 14, 1854.

The Mabley and Carew Co.
CINCINNATI'S GREATEST STORE. FOUNDED 1877.

CINCINNATI is Captivating

That's what Charles Dickens said of Cincinnati when he was here many years ago. He liked it so well he came back again!

He was particularly struck with the "wonderful hospitality" of the people here.

That was many years ago, but our hospitality hasn't changed any!

You will say we are "captivating" and "wonderfully hospitable" also, after you have spent a time with us. There are many more interesting and beautiful sights to see now than there were in Dickens' time. He didn't see any Zoo, for instance, or Art Museum or Rookwood Pottery, or Union Central Building.

All Dickens saw and much more is waiting for you now. Come and see "Captivating Cincinnati!"

Dickens was Right!

KNIGHT SUFFERED FOR 15 YEARS

Petersburg Man Is Entirely Relieved of Rheumatism By Taking Tanlac

"I had rheumatism in all my joints and my muscles were so stiff that a sudden movement of any part of my body caused me to suffer agony," said J. O. Knight, a well known contracting carpenter living out on Route 3, Petersburg, Virginia.

"For the past fifteen years," continued Mr. Knight, "I had a constant pain under my left shoulder blade. I had rheumatic pains all over my body and my muscles were all drawn up. I could get in no position at night that would give me ease and many a morning I was not able to go to work. I was also troubled with a bad case of indigestion and after every meal I had burning, gripping pains in my stomach. Gas would bloat me up until I could hardly breathe, and I would often get so deathly sick at my stomach that I could not stand up. Dizzy spells would come over me every day and I became so weak and faint I had to lie down until they passed over. Ever after I went to bed these nauseating spells kept me in such misery that I could hardly sleep at all and when I got up I had a bad taste in my mouth and had no strength or energy about me.

"As long as I live I will always feel that I owe a debt of gratitude to my friend who told me about Tanlac. I began to improve after the first few doses and now that I have finished my fourth bottle my troubles have all disappeared. The stiffness in my joint has left me and I haven't a pain or ache in my body. I am enjoying my meals, because I can eat anything I want without suffering any bad effects whatever. Gas has stopped forming all together and I am never bothered with those nauseating spells any more. I get up mornings after a good night's rest feeling just fine. I am as sound as a dollar in every way and I never miss a single day from work. I have gained eight pounds in weight and am feeling better and stronger than I have in years. I prize Tanlac above all medicines, and it will always be a pleasure for me to recommend it."

Tanlac is sold in Richmond by Stockton and Son, 1015 E. Main St.

CLEAN LICENSE NUMBER

Chief of Police Devere stated Wednesday that some of the owners of autos "really" should wash the plate bearing the license number of their machines, for some of them are unintelligible even at close range. The matter of reading the numbers on machines is important, and some of them apparently have nothing but muddy blank number plate dangling from them. In case of an accident this fact might figure extremely important.

Old Faithful geyser in 50 years has never missed spouting after every interval of 65 minutes.

ALIENS LEAVE BY WHOLESALE

6,000 Are Sailing Weekly for Europe Where Dollar Is Potent.

CAUSE OF LABOR SHORTAGE

Difficulties of Traveling in Europe and Danger of Losing Their Money Has No Influence on Aliens Eager to Return.

New York.—Wholesale re-emigration of aliens in America began last April and is continuing in ever growing numbers. Steamship ticket agents agree that 6,000 are leaving for Europe weekly, although the immigration is confined to Italians and Belgians.

I have been in contact with a great number of alien laborers in the United States since my return from Europe in January and I find that a great percentage of them are preparing to leave the states, writes Joseph Szebeny in the New York Times. Among the Hungarians and those coming from the newly formed states in eastern Europe, 50 per cent are about to return to the old country.

The resultant labor shortage especially is being felt already, and employers of alien labor are forced to advertise continually in order to replace the hands leaving week after week. They are spending thousands of dollars on advertisements in Slovak and Hungarian papers. Mining companies especially prefer Hungarian workers because they are steady and hard workers, doing jobs no others would do, and earning in most cases up to \$120 a week.

Causes of Re-Emigration. The causes of the "wholesale re-emigration" may be found in the following facts:

1. Alien laborers have saved up money during the war, when they were barred from sending it home, and, according to bankers dealing exclusively with them, they have an average of \$3,000. If we take what a dollar is worth in eastern Europe, it is easy to comprehend that the worker exchanging his dollars into kronen becomes the richest man in his village a mere very few could withstand. For \$3,000 he gets as much as 750,000 kronen, enough to buy out the richest landlord in his district.

2. Prohibition. The laborer has not seen his family many have not even heard from them, for six to ten years.

3. The high cost of living in America. Geza D. Berko, managing editor of the Hungarian Daily, who has his finger on the alien movements in America more than any one else, when questioned on the subject said:

"The re-emigration is slow because there is not sufficient shipping. There are only five steamers weekly available for eastern Europe at present and yet 6,000 are leaving by them. Should the sailing facilities improve and the passport question be simplified, it will grow by leaps and bounds."

Cannot Be Dissuaded.

The manager of Emil Kiss' banking house, the largest ticket agents on the east side, said that they were discouraging re-emigration as much as possible, and explained to applicants the difficulties of traveling in Europe, the danger of their losing their kits and money on the way.

"Yet it is impossible to persuade them to stay," the clerks assert. "There are letters from former travelers who say that they have been cheated and robbed of their possessions, arrived home stripped of everything, yet you can't induce them to stay."

"Do you discourage exchange of dollars as well?" I asked.

"We do, but the constant fall in the exchange makes it difficult. By the time the man arrives home he gets more for his dollars, so he prefers taking it in cash, as most of them are ignorant people who mistrust drafts. Now, in traveling through Europe the victim—for you can't call him by any other name—encounters laws in every country prohibiting the export of dollars. If he lands in France his money is exchanged into francs, in Germany into marks, in Austria or Yugoslavia into kronen, being 10 or more per cent everywhere."

Some of the re-emigrants travel through five countries and thus lose 50 per cent of their money on forced exchange. In France there are even graver difficulties, for even the export of French money to exceed 1,000 francs is prohibited. The traveler must get a state permit, a procedure taking sometimes weeks. The whole of Europe is hungry for dollars.

Shun Powder, Says Photographer.

Atlantic City, N. J.—Will H. Towle of Washington, D. C., addressing the annual convention of photographers of the middle Atlantic states here, declared that if girls want to look beautiful in a photograph they must not powder their faces, since powder flattens expression and obliterates line necessary to bring out beauty.

The "Z" Has More Than Rated Power

The work delivered by the "Z" Engine goes beyond the horse power rating we place on it. This gives greater value for your money—increased service—longer life.

The "Z" has large inlet and exhaust valves—easily accessible—insure smooth, steady running—complete fuel combustion. Tight compression in the accurately machined and polished cylinder increases "Z" Engine power—reduces fuel and power losses to minimum. Positive, dependable Bosch ignition adds to power output—provides hot, powerful spark—insures quick starting. Complete combustion gives greatest power from each gallon of fuel—prevents formation of carbon—means more power at lower cost.

Other "Z" features are: Runs on kerosene, coal oil, tops, as well as gasoline; built in Bosch high tension oscillating magneto; every part interchangeable; clean-cut, efficient design; long-lived endurance. Come in and see this celebrated engine today.

Both one year, by mail, for only \$8.00

This offer applies to renewals as well as new subscriptions but only to people living in Kentucky, Tennessee and Indiana. New subscriptions may, if desired, start at a later date, and renewals will date from expiration of present ones.

If you prefer an evening newspaper, you may substitute The Louisville Times for the Courier-Journal. Send or bring your orders to the office of

THE RICHMOND DAILY REGISTER

Carry The Country With Cox

Cox Can Win

Kentucky Democrats, you are asked to send delegates to the San Francisco Convention pledged to nominate a man who can win.

That man is James M. Cox, Governor of Ohio.

Here is a candidate whose record as a vote-getter is known.

Three times he has been elected Governor of the normally Republican State of Ohio.

Twice he was elected to Congress by big majorities over strong opposition.

He has been a winner in business, too, by his own merit and courage.

There is nothing in his record that should attenuate a single Democratic vote.

There is much in his record that will command thousands of Independent and Republican votes.

His popularity was a big factor in putting the pivotal State of Ohio in the Democratic column in 1916.

Ohio's electoral votes are needed this year; he can swing them.

What other Democratic candidate can?

The Cox Movement in Kentucky is backed by citizens who see in the nomination of Governor Cox Democracy's best chance for victory in State and Nation.

It is simply an effort to put Kentucky Democracy behind the one man who can win in November and, to insure success, all factionalism should be avoided and representative Democrats of character, intelligence and independence should be elected as delegates.

GOV. JAMES M. COX OF OHIO

Born on a farm March 31, 1870.

Educated in country school and high school.

Worked as farmer boy, newsboy, printer's devil and reporter.

Owne and publishes Dayton Daily News and Springfield Daily News.

Elected to Congress in 1909 and 1911.

Elected Governor of Ohio in 1912, 1916 and 1918.

Cox Is Worthy

Kentucky Democrats, you are asked to send delegates to the Democratic National Convention instructed to nominate a man who is worthy to sit in the White House.

You are asked to use your influence for the nomination of a self-made man, one who personifies the best traditions of red-blooded Americanism.

A man, who, born on a farm, without favoring conditions, has risen from newsboy and printer's "devil" to reporter, from reporter to editor and publisher of two great papers.

A man, whose neighbors, who know him best, have called him three times to the highest office in their State.

A man whom no interests have been able to swerve from what he considered to be his plain duty.

A man who adjusts differences between capital and labor without resort to troops.

A keen business man who says "profiteering is the result of conditions carrying opportunity, if not preference, to one individual or class over another."

A normal American, neither reactionary nor radical, the kind of man who will restore normal conditions in a normal, American way.

Such a man is James M. Cox, the man who can win.

COX HEADQUARTERS

have been established in Rooms 1, 2 and 3, The Seelbach, Louisville, where Democrats who want to see a winner nominated will be welcome. Come in, write or telephone.

Send Cox Delegates to the State Convention

Democrats, if you want a winner as your Presidential candidate, if you want to see Democracy triumphant, attend the mass conventions in your county seats at 2 o'clock, Saturday afternoon, May 1, and vote for delegates who will insist on a Cox delegation to the San Francisco Convention.

Women, who will cast their votes in November, are entitled to representation and are urged to attend these conventions.

ACME QUALITY VARNO-LAC

More shabby, surface worn furniture is discarded each year than is destroyed by fire.

You insure your furniture against fire. Is it insured against wear? A good piece of furniture will last a life time if its surface is properly protected.

Once a desk, chair or table loses its newness, begins to look shabby—it travels a fast road to the junk road. Renew its surface with Acme Quality Varno-Lac and you renew its life. You've saved the price of a desk, chair or table, and enhanced the appearance of your home. By saving the surface you save all.

Acme Quality Varno-Lac stains and varnishes at one operation producing handsome imitations of expensive hardwoods. Good for floors, furniture and woodwork.

Being in the business, we can probably give you some helpful hints about painting.

H. L. PERRY & SON

MOTORIZATION OF FARM (Continued from Page 1)

produce crops for human consumption. With farm land selling at from \$100 to \$300 an acre, investment of capital in the land necessary to maintain so inefficient a machine as the horse has proved himself to be a little short of criminal. The horse has his special uses and should not compete with a farm or highway machine which can perform the work of from six to a dozen horses at a marked saving in operating costs.

The United States Department of Agriculture at Washington, D. C., in 1918 made a very thorough survey of

truck operations in the rural districts. They found that the length of hauls by motor truck average 11.3 miles, as against 9 miles with team and wagon; that 3.1 round trips were made a day with the motor truck, against 1.5 round trips with team, that with the motor truck wheat and corn have been transported to market at 15 cents a ton-mile for wheat by team, and 30 cents a ton-mile for corn by team; that for the United States, taken as a whole, the average wagon load of wheat was 55 bushels as against 84 bushels on motor trucks. Cotton has been transported to market by motor truck at 18 cents a ton-mile as against 1918 made a very thorough survey of

motor truck was 6.6 bales against 2.6 bales by horse and wagon.

These facts, discovered by the Department of Agriculture, prove in point of time and miles covered that the motor truck is practically four times more efficient than the horse and wagon and the farm that once sold for a reduce figure because it was 12 miles from market has, by the introduction of the motor truck as compared with the horse and wagon, in point of time and miles, been brought to within three miles of market.

On farms that are properly motorized increased acreage can be handled and increased yields secured. For example, if the proper preparation and seed bed is made for corn and it is cultivated at the right time, it is as easy to produce a 60-bushel to the acre crop of corn as it is a 30-bushel to the acre crop. The cost per bushel of producing a 30-bushel crop of corn in the middle states is 34 cents, while the cost per bushel of a 60-bushel crop of corn is 21 cents, and not only has the farmer the added 30 bushels but he has an additional 13 cents per bushel profit on his total yield. The more progressive farmers throughout the country are fast realizing the fact that the motor truck is capable of doing in a third of the time what the team and wagon once did, and this time saved enables the farmer to do a more perfect job of preparation, planting, cultivating and harvesting.

The short hauls with which the railroads and the waterways have in the past been confronted have been the profit-reducing elements, but there is nothing in the short haul that cannot be handled profitably with the motor truck.

To those who have given even meager thought and attention to the highways method of transportation it is astonishing to learn how heavy a percentage of the American farmers are cognizant of the fact that the pneumatic tired truck is the only economic method whereby produce can be picked up in the field and transported to the door of the consumer, without the necessity of loading and unloading, so frequent with the waterways and the railroad methods.

The efficiency of motor trucks on the farm had increased more by the development of pneumatic tires than by anything that has come to the industry in years.

Pneumatics materially increase the life of the truck, reduce operating and repair bills, give greater mileage on gas and lubricating oil. They afford traction that enables the truck to

Remember when the first automobile came to town

TODAY there are more than 7,000,000 of them in the country. Pretty soon nearly everybody in this section will be traveling around in his own automobile.

The first thing a man wants to know nowadays, when he starts out to buy a car, is how much it is going to cost him to keep it running.

It's all very well to take some dealer's word about a tire—if you know who he is and his object in selling it to you.

Our object in selling U. S. Tires is to have you come back for more—and be glad

that we sold them to you.

U. S. Tires have a record behind them.

They are built by the people who perfected the first straight side automobile tire, who produced the first pneumatic truck tire.

Two of the greatest contributions to tire and motor economy ever made.

As representatives of the oldest and largest rubber concern in the world, we have a reputation to live up to. We can't afford to substitute "just as good" tires for tires of standard quality.

THE LUXON GARAGE, RICHMOND, KY

PUBLIC SALE

Big Type Poland China Hogs

at the East End Stock Yards, in Richmond, Kentucky, on

Monday, - County Court day - May 3, 20

At 1 o'clock Sharp

Will sell at public auction 20 head of the best Big Type Poland China pigs that it has been our privilege to offer to the public.

These pigs have all had the double treatment with the Pitman-Moore Hog Cholera serum and a certificate of treatment will be given with each pig. This offering represents the very best breeding that can be obtained east or west. In fact, you can secure at this sale blood lines that it has taken breeders of the east and west one-half century to produce and develop.

These pigs are all sired by my herd boar, Blue Grass Giant, that cost me a long price as a pig and is one of the smoothest and biggest boars in the state of Kentucky today, and out of sows second to none in the state.

Maryanna Price cost me \$350 and weighed when she arrived in Richmond, 845 pounds over W. W. Breckard's scales. She will have seven pigs out of a litter of 11 in this sale. Don't miss them. Miss Cora Wonder, a sow that Bert Stafford paid \$257.50 for for me to take to the State Fair, will have six pigs out of litter of nine. Lady Buster cost me \$207.50 as a gilt and this is her second litter. Eight pigs in this sale.

There are pigs in this sale that are destined to write Poland China history in Kentucky. Pigs from our herd are in breeding herds and on some of the best farms in the state and these people will be contending bidders at this sale. There is a reason for it. They know that they can buy as good hogs from our herd as they can get in the east or west for about one-tenth cost there.

There has always been money in hogs, but the thoroughbred will buy more automobiles and light plants and luxuries on the farm in the future than the old scrub ever could have bought.

Remember this sale is on County Court day for your convenience. Come out to the East End Stock Yards and spend the afternoon with us and see some good hogs whether you wish to buy or not.

Terms cash. Crates to be furnished for hogs to be shipped only.

James H. Pearson

RICHMOND, KENTUCKY

negotiate mud, sand and snow on and off roads when solid tired trucks would not operate. Their cushioning qualities permit of an increased minimum speed. Over rough roads this cushioning quality is of inestimable value when the shrinkage in live stock and the damage to perishable merchandise is taken into consideration.

BAD BREATH

Dr. Edwards' Olive Tablets Get at the Cause and Remove It

Dr. Edwards' Olive Tablets, the substitute for calomel, act gently on the bowels and positively do the work.

People afflicted with bad breath find quick relief through Dr. Edwards' Olive Tablets. The pleasant, sugar-coated tablets are taken for bad breath by all who know them.

Dr. Edwards' Olive Tablets act gently but firmly on the bowels and liver, stimulating them to natural action, clearing the blood and gently purifying the entire system. They do that which dangerous calomel does without any of the bad after effects.

All the benefits of nasty, sickening, griping cathartics are derived from Dr. Edwards' Olive Tablets without griping, pain or any disagreeable effects.

Dr. F. M. Edwards discovered the formula after seventeen years of practice among patients afflicted with bowel and liver complaint, with the attendant bad breath.

Olive Tablets are purely a vegetable compound mixed with olive oil; you will know them by their olive color. Take one or two every night for a week and note the effect. 10c and 25c.

HEARD ABOUT TOWN

Dr. Taylor and Mr. O. C. Rucker were in Cincinnati on business last week. Dr. Taylor drove his new Overland car back he purchased while there. About a dozen typewriters.

Proprietor B. Z. McKinney, of the Madison Laundry, is back from Louisville where he attended an important meeting of the State Laundrymen's Association. The association next year will meet at Paducah.

Ben F. Hurst is in Louisville for several days attending a meeting of the Master Plumbers' Association.

Their many friends in Richmond their former home, are much pleased that Capt. John R. Pates and his family are coming back to Kentucky to live. Capt. Pates will be secretary-treasurer of the Trace Fork Coal Company, Lexington. The coal mines of this company in Perry county, were bought last week by C. L. Riley, of Woodford county. Capt. Pates and family have been in Pennsylv-

vania for several years where he was connected with the Export Coal Company.

Saunders & Ralls, of Millersburg, sold last week to a West Virginia buyer a six-year-old walking horse for \$450. They sold a four-year-old to a Mississippi man for \$300.

Dudley Gibson, of Cumberland Gap, Tenn., underwent an operation for appendicitis at the Gibson Infirmary here late last week.

Madison County, Kentucky

placed in the court house of Madison county, with the names of all soldiers, sailors and marines both white and colored.

It is the desire of the Jesse M. Dykes Post No. 12, American Legion to obtain all of the names of World War veterans of the above branches service who enlisted from Madison county or whose home was in Madison county at the time of enlistment prior to Sept. 7, 1917. Any veteran who is a member of Jesse M. Dykes Post or who was enlisted into the service by conscription need not send their names in, as we have a list of them. We request the assistance of citizens of Madison county as some of the veterans are out of the county and in service. We want the list complete by the first of June, 1920. All names must be of honorably discharged veterans. All names will be investigated. Any one who knows of a veteran other than those mentioned above, that we have, please send their name in to

EUGENE K. MOYNAHAN,
Chairman Tablet Committee

HISTORY OF FIRST PRESBYTERIAN CHURCH

There has been a good deal of discussion as to when the First Presbyterian church which has just been torn down was built. It seems the church records give no information. The following extracts from the Kentucky Weekly Messenger, a newspaper published in Richmond of date October 8th, 1858, may throw some light on the subject:

"Richmond Royal Arch Chapter, No. 16 and Richmond Lodge F. and A. M. No. 25 meet in their hall on the corner opposite the Methodist church" etc.

"Miss Ruth Hastings will open a school for girls on Monday Sept. 6th in this place. For the present the school will be conducted in the large room attached to the residence of Mrs. Rebecca Miller, but will be removed to lower story of the Presbyterian church as soon as it shall be in a state of readiness etc., Aug. 27, 1858."

In a deed from Joel J. Walker to M. D. Wainwright executed May 19, 1858 conveying lot No. 23, which adjoins the church lot on the East (W. W. Pigg residence) in describing lot No. 23 the deed recites "and adjoining the lot upon which the Presbyterian church is now being erected".

It is well known that the Masons occupied the upper story of the old church. They were not there in October 1858. There are persons now living here who went to school to Miss Hastings, both at the Miller residence and in the basement of the church. The Rebecca Miller property is still standing on East Main street and is occupied by Alex King and a pool room, the latter was the school room. There have been found among the debris of the church building two inside bricks inscribed 1858. They were probably made and burned that year.

It is fair to assume from the above statements that the church was completed some time in the late fall of 1858 or early in 1859.

The following may be of interest as to the date at which the Christian church lately replaced was built.

Notice in some paper—"The contract for building the Christian church this fall having been made", subscribers are called on to pay up, etc. Silas T. Green, Treasurer.

During that year, 1858, Samuel G. Harding was principal of Madison Female School (Madison Institute), and J. S. Keppert principal of Madison Male Seminary (situated where

the Caldwell City school is now located).

OLD TIMER

MISSOURI DEMOCRATS MEET TOMORROW

(By Associated Press)

Joplin, Mo., April 21—Missouri democracy will step formally into 1920 political campaign at the state party convention here tomorrow.

The last of the congressional district conventions to elect delegates to the state meeting have been held, and already party leaders are arriving to put the finishing touches to the program here.

Gov. Frederick D. Gardner has been invited to act as temporary chairman and to deliver the keynote speech. It is understood the governor is scheduled to be permanent chairman of the convention, the principal business of which will be the selection of delegates-at-large and district delegates to the national convention; the naming of a national committeeman to succeed Edward F. Goltra, of St. Louis, and the adoption of a platform.

For the first time in Missouri's political history, women will participate in the deliberations of the convention and have representation among the national convention delegates. Party leaders declare there will be eight delegates sent to the national convention, each with a half vote and that four of them will be women. All district delegates will be chosen in caucuses and their election must be ratified by the convention as a whole.

In addition to Gov. Gardner, Gov. James Cox, of Ohio, candidate for the democratic presidential nomination, David A. Francis, of Missouri former United States Ambassador to Russia, Congressman Champ Clark, and United States Senator James A. Reed, of Missouri, are among the more widely known party members expected to attend and address the convention.

COTTONBURG

Quite a number from this section attended the circus at Richmond.

Miss Ruth Belle Bailey and Leander Rogers were married April 12th. Many friends wish them happiness.

C. J. Sowers is on the sick list.

Mr. and Mrs. B. H. Campbell motored to Cartersville Sunday afternoon, bringing their niece Miss Thelma Robinson home with them.

Miss Thelma Robinson and Edward Lawson were Sunday night visitors of Mrs. B. H. Campbell.

Ben Stone is suffering from a broken arm, sustained in trying to crank his automobile.

Rev. Bigel delivered a masterly sermon Sunday night on the subject: "What Does My Religion Mean to Me?"

DREYFUS

Riley Lain was in Berea Saturday on business.

Jett Ashcraft, of Ravenna, is visiting homefolks here.

Clinton Lunsford and Willie Rable have gone to Irvine to work.

Verlie Clark has returned to Berea College after a two weeks' stay with homefolks.

Miss Lucy Kidwell entertained at her home Saturday evening for a number of her friends.

Leonard Ashcraft has returned home from Ohio where he spent some time with relatives.

Sonori Hensley of Richmond visited here Sunday with friends.

Bro. Lunsford preached here Sunday and Sunday night.

Bro. Lunsford has purchased a new five passenger Ford car.

DODDSVILLE

Mrs. F. M. Anderson, who has been ill for some time is yet far from having recovered.

Misses Mary and Mattie Dozier have returned from a visit with Miss Jennie Sharp.

Edgar King and Owen Sharp have returned from a visit to their homes.

Mrs. Mary Johnson and daughter are home from a visit to Mrs. Fount Winkler.

A landslide just this side of Frankfort, on the L. & A. caused a slight delay in a number of trains yesterday which reached Richmond considerably after their scheduled time.

Delco-Light is Carrying the Comforts and Conveniences of the City Into Farm Homes

It is furnishing bright clean electric light throughout the house and barn—doing away with the smoky, dangerous kerosene lamp and lantern.

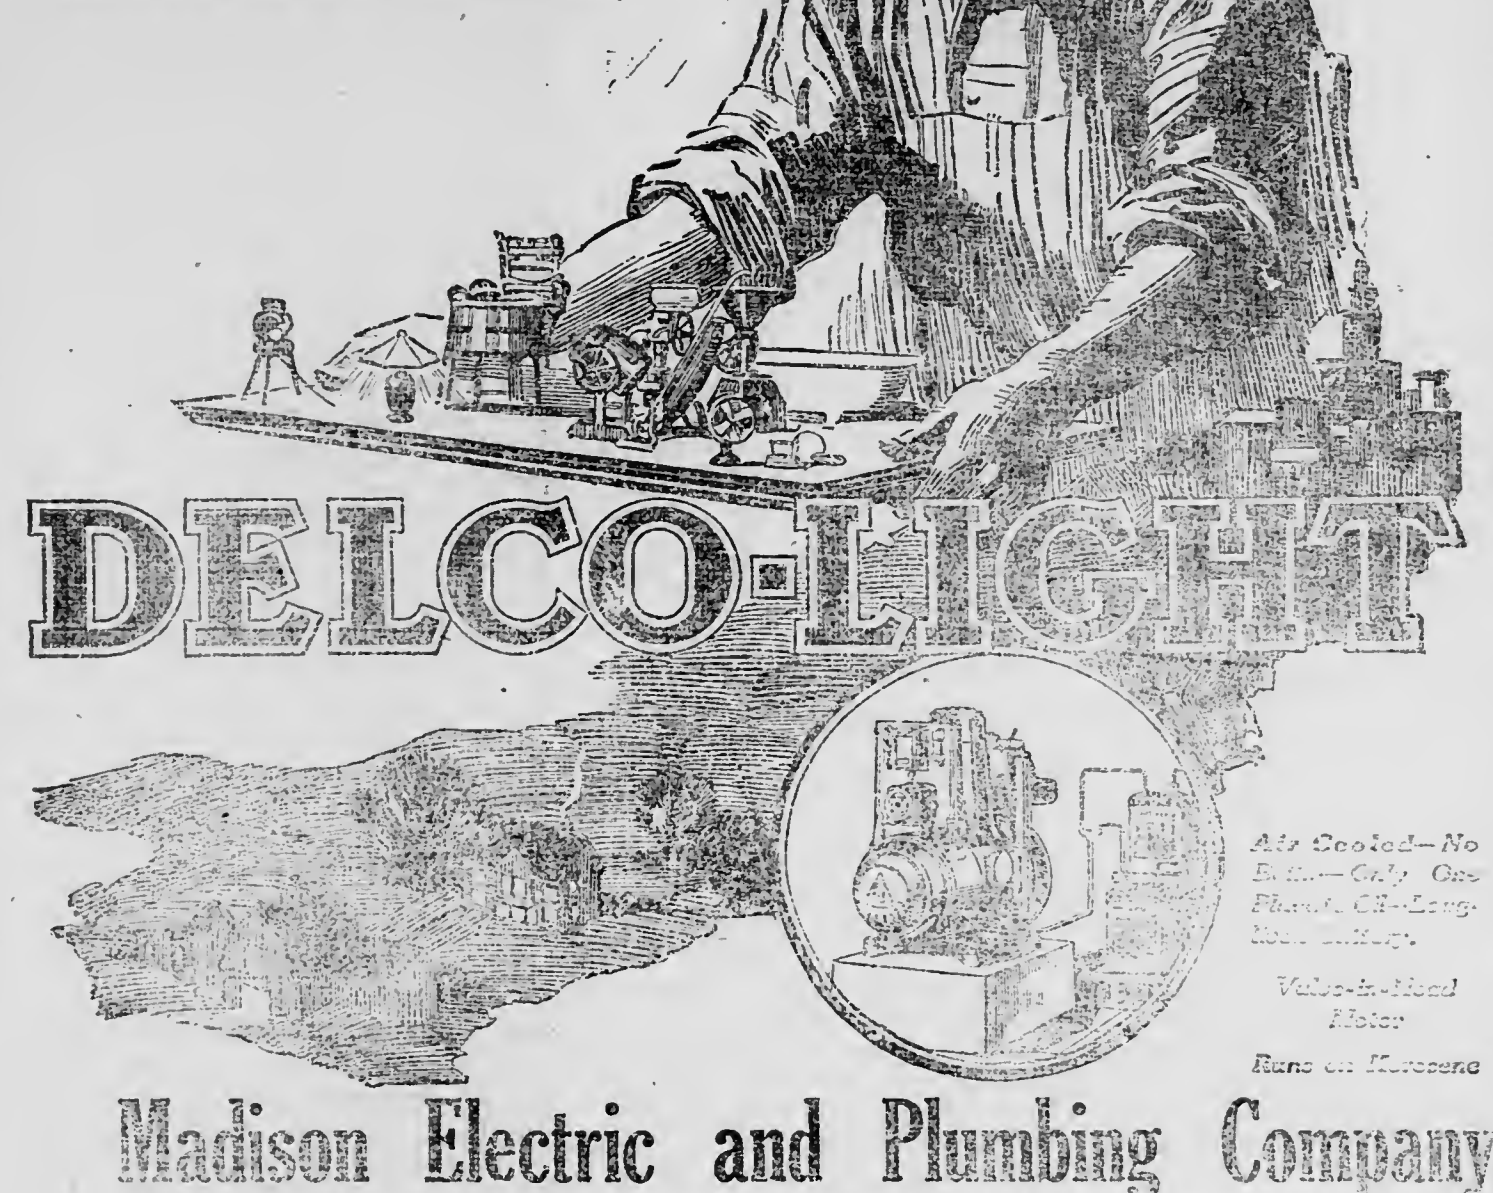

It is providing power to pump water, thus making possible a modern bath and the convenience of running water throughout the house and barn.

It is operating the washing machine, the churn and cream separator, the vacuum cleaner, the milking machine, the fanning mill, and the grindstone.

It is revolutionizing farm life—and at the same time it is saving so much in time and labor that it is actually paying for itself.

Over 100,000 satisfied users throughout the world are the visible evidence of Delco-Light leadership in the Farm Light and Power field.

Take a Real Ride in the Cleveland, and You'll Know What a Car It Is

The Cleveland Six, the sensation of the year among light sixes, is selling itself to thousands who use discrimination in picking out the car they want.

To attempt to describe the qualities of the Cleveland Six is no easy task. You must ride in it to know it. Take a real ride and you begin to understand that here is a better light six, very much better. It has an enclosed over-head valve motor, of exclusive Cleveland design and manufacture and tested in road work for three years before being offered the public, that gives performance unsurpassed.

A real ride will show you, better than can be told you, that the Cleveland has power and pick-up and flexibility and ease of driving that do not come with many other cars. Low-hung spring suspension and splendidly upholstered cushions wipe out the road bumps. Beautiful body lines place the Cleveland above the usual plane in appearance. Upholstery is of genuine hand-buffed leather.

Come let us show you what a car the Cleveland is

Milburn Light Electric

"Let's take the Milburn," is the common expression in families having more than one car.

It is so cozy and chatty; no chauffeur is needed, because anyone can drive this car and likes to. It is as roomy and comfortably for a party of five. Away you go as far as you care to and as fast as you ever want to. And silently, without a motor sound to mar the ideal pleasure of swift motion.

There is no car like the Milburn. We take pleasure in its demonstration.
